DATE & TIME:

3 MARCH 2021 [WEDNESDAY]

9.30AM – 11.30AM

WEBINAR: Microsoft Teams

CPD POINTS 2

EARLY BIRD

RM39

Valid Until 25 FEB 2021

PER PAX:

RM50

TARGET PARTICIPANTS

New employees, Refreshers, Infection Control Nurse/Link nurse, Occupational Safety Officer, Operation manager, Housekeeping, Support Service Staff, and anyone who wants to learn about Waste Management.

COURSE DESCRIPTION

Medical waste concerns are not intuitive and even knowledgeable employees are not going to know how to segregate and store waste intuitively. There is a need for adequate awareness among healthcare workers about how to manage healthcare waste effectively, but specially qualified supervisory and monitoring authorities need to be specially trained. This course is designed to set up sustainable training for all employees, even those with desk jobs who do not ordinarily deal with clinical matters.

COURSE OUTCOME

- Gain basic knowledge about waste and healthcare waste management
- Able to enforce a safe system of management
- Aid to fulfil responsibilities in the tasks of healthcare waste management
- Competent to take effective action in the event of an incident or crisis

COURSE CONTENT

- Introduction and Classification of waste and segregation
- Job function of those in charge of waste management including waste handlers and collectors
- Transportation of Clinical Waste – What Happens from Generation to Incineration
- Occupational Safety - Recommended actions in the event of an incident or crisis
